

Whitepaper V.1

# Fantom Fortune

Fantom Fortune is a HIGH ROI staking project where you can stake FTM and receive returns on your FTM after a fixed number of days (*as per your plan*)

## Safety

Our smart contract has been hard-coded with an anti-rug pull mechanism, making sure that your funds remain safe. Not even the project owners have the access to withdraw funds from the smart contract. The funds can be withdrawn ONLY by the users after their respective plans come to maturity.

We believe in full transparency, so we made sure that all investment plans, daily earnings, ROI and staking period are clearly listed before you choose to stake your FTM.

The fees are clearly outlined below and there are no hidden fees or re-routing of funds.

## Staking Plans

We have created plans which are simple to understand even if you are new to staking. There are 8 plans in total, spread across 2 categories: **Unlocked and Locked plans**.

INVEST FROM

**20 FTM**

*No max limit*

**Unlocked**

**125% to 331%**

ROI in 10 - 26 days

**Locked**

**169% to 628%**

ROI in 10 - 26 days

## Unlocked Plans

In this plan you will earn a daily fixed percentage (as per your plan) against your staked FTM.

Staking Period	10 Days	16 Days	21 Days	26 Days
Daily Earnings	12.58%	11.43%	12.36%	12.74%
ROI	125.80%	182.88%	259.56%	331.24%

10 Days

Daily Earning

12.58%

Total Return

125.80%

Day	ROI	Day	ROI
1	12.74	14	178.36
2	25.48	15	191.10
3	38.22	16	203.84
4	50.96	17	216.58
5	63.70	18	229.32
6	76.44	19	242.06
7	89.18	20	254.80
8	101.92	21	267.54
9	114.66	22	280.28
10	127.40	23	293.02
11	140.14	24	305.76
12	152.88	25	318.50
13	165.62	26	331.24

## Unlocked Plans

### Example:

If a user invests 100 FTM in the 26 days unlocked plan, then 12.74% of 100 FTM (12.74 FTM) will be available for withdrawal every day for the next 26 days. After 26 days a total of 331.24 FTM will be available for withdrawal.

The Day the user invests it will be considered Day 0

*Day 1*     **12.74% of 100 FTM = 12.74 FTM**

*Day 2*     **12.74% of 100 FTM = 25.48 FTM**

*Day 3*     **12.74% of 100 FTM = 38.22 FTM**

*Day 4*     **12.74% of 100 FTM = 50.96 FTM**...and so on till *Day 26*.

After 26 Days, the total FTM for withdrawal will be 331.24 FTM with a total return of 331.24%

\*In unlocked plans, you can withdraw your daily earnings once every day.

## Locked Plans

The locked plans also consist of 4 plans:

<i>Staking Period</i>	<b>10 Days</b>	<b>16 Days</b>	<b>21 Days</b>	<b>26 Days</b>
<i>Daily Earnings</i>	24.18%	20.56%	18.08%	15.86%
<i>ROI</i>	169.79%	339.68%	502.02%	628.98%

**10 Days**

 at the end

Day	ROI	Day	ROI
1	15.86	14	107.50
2	18.37	15	124.55
3	21.28	16	144.31
4	24.66	17	167.20
5	28.57	18	193.71
6	33.11	19	224.44
7	38.36	20	260.03
8	44.44	21	301.28
9	51.49	22	349.06
10	59.66	23	404.42
11	69.12	24	468.56
12	80.08	25	542.88
13	92.79	26	628.98

## Locked Plans

The daily earnings of the previous day will be compounded into the next day.

### Example:

User invests 100 FTM in the 26 days locked plan.

The Day the user invests it will be considered Day 0

*Day 1*     **15.86% of 100 FTM = 15.86 FTM**

*Day 2*     **15.86 + (15.86% of 15.86) = 18.37 FTM**

*Day 3*     **18.37 + (15.86% of 18.37) = 21.28 FTM**

*Day 4*     **21.28 + (15.86% of 21.28) = 24.66 FTM...** and so on till *Day 26*.

After 26 Days, the total FTM for withdrawal will be 628.98 FTM with a total return of 628.98%

\*In locked plans, you can withdraw your total earnings only after your plan matures.

## Hold Bonus

There will be a 'hold bonus' feature for users who do not withdraw their FTM.

**The bonus will be 0.2% every day.** The bonus may increase maximum upto 2%. If the user holds the earnings and does not withdraw, he will get 0.2% bonus every 2 days for not making a withdrawal. If the user withdraws, the 'hold bonus' will reset to 0.

### Example:

A user deposits 100 FTM in 10 Days unlocked plan and is receiving 12.58 FTM every day.

*Day 1*      **12.58 FTM**

*Day 2*      **(0.2% of 12.58 FTM) + 12.58 = 12.60 FTM**

*Day 3*      **(0.4% of 12.60 FTM) + 12.58 = 12.63 FTM**

*Day 4*      **(0.4% of 12.63 FTM) + 12.58 = 12.63 FTM**

*Day 5*      **(0.6% of 12.63 FTM) + 12.58 = 12.65 FTM**

*Day 6*      **Suppose the user withdraws on this day, then 'hold bonus' will reset to 0 and Day 6 earnings would be 12.58 FTM**

\*For locked plans, the user will get a 'hold bonus' only after the FTM is available for withdrawal, that is, only after the timer has ended.

## New Deposits

For NEW deposits there will be daily increment of 0.2% on daily earnings

### Example:

User invests 100 FTM in 10 days locked plan.

Day 1	<b>10 days unlocked plan will show 12.58% daily earnings</b>
Day 2	<b>12.78% (12.58% + 0.2%)</b>
Day 3	<b>12.98% (12.58% + 0.2%)</b>

## Fees

There will be a fixed fee for every deposit and withdrawal. Withdrawal fee will be distributed as Developer and Insurance Fee.

*(Developer fees will be used for marketing purposes to ensure the longevity of this project. Insurance fees will be equally distributed to the users who are unable to get back their principal amount in the event of contract balance turning 0)*

**Deposit Fee: 8%**

**Withdrawal Fee:**

**Developer: 5%**

**Insurance: 3%**

## Force Withdraw

This function lets you withdraw your initial investment and acts like a stop-loss.

Even if there is time remaining for the plan to end (assume 8 days remaining), the user can use the 'force withdraw' function to withdraw their original deposit amount. In this case, **withdrawal fee of 35% will be charged.**

Out of this 35%, 25% will stay in the contract, 5% go to the dev wallet and 3% will go to the insurance wallet

### Example:

User invests 100 FTM in 21 days locked. User will get back 65 FTM (100 FTM - 35%).

\*This function is available only for 21 and 26 days of Locked plans.

## Referral Systems

Refer to your friends, and for every deposit and withdrawal they make, you will get a fixed commission.

\*You can see your referral link after connecting your wallet.

### Deposit Commissions:

Level 1: **5%**

Level 2: **3%**

Level 3: **1%**

### Withdrawal Commissions:

Level 1: **1.5%**

Level 2: **0.5%**

Level 3: **0.1%**

**\*Note:** To be able to withdraw your earnings from referrals, you need to make at least 1 deposit.

### Level 1:

If the person you referred to makes a deposit, then it is considered Level 1. You will receive 5% of their deposit value.

### Level 2:

If the person you referred to refers another person and that person makes a deposit, then it is considered Level 2. You will receive 3% of their deposit value.

### Level 3:

If that other person then refers to someone else and that person makes a deposit, then it is considered Level 3. You will receive 1% of their deposit value

## Strategies

We recommend depositing 60% into 26 days unlocked plan and 40% into 21 days locked plan. In 13 days you will get your initial investment back, if you withdraw your earnings daily from 26 days locked plan.

As long as there are funds in the contract you will be able to make withdrawals.

**\*Note:** The principal deposit amount would be locked in the staker and the ROI is generated only as the daily rewards.
